Subject: Closing NRDCA/UL Accreditation Program for LWIC Contractors

The NRDCA has spent several years working towards creating an opportunity to provide to the market improvement in the ability of LWIC contractors to demonstrate a level of increased knowledge through its LWIC Contractor Accreditation program. The program also required an annual audit conducted by UL.

The NRDCA formally announces the close of this program for lack of participation by contractors. Therefore if any specifications includes wording requiring the contractor to be approved under the NRDCA program, the contractor will not be able to fulfill that requirement. We suggest that the wording be eliminated from all specifications.
